EDUCATION

B.Tech- Information Technology - CGPA - 7.90

KIET Group of Institutions, Ghaziabad

2023 – 2027

Uttar Pradesh

Xth (CBSE) (Percentage: 92.2%)

2020

XIIth (CBSE) (Percentage: 88%)

2022

PROJECTS

EduHub– Student–Faculty Interaction Platform  | FULL Stack, JWT Authentication **March 2026**

- Developed and deployed a full-stack web platform enabling seamless communication between students and faculty, improving academic progress tracking and interaction efficiency.
- Implemented features including profile management, Assignment Submission feedback system, academic progress view, course Details, announcements, and secure login workflows

Tourist Safety Application  | React.js, Node.js, Express, MongoDB, GPS Tracking.

Oct 2025

- Developed a full-stack tourist safety application enabling real-time GPS tracking, SOS alerts, geo-fencing, and secure tourist monitoring features.
- Implemented location-based alerts, panic button functionality, and AI-based tourist insights for enhanced safety and quick emergency response.
- Built using React.js for UI, Node/Express for backend APIs, and MongoDB for secure data storage; deployed backend on Vercel

Smart Weather App  | React, JavaScript, Express, Node.js

Jan 2024

- This smart weather app provides real-time weather updates for any location worldwide.
- It delivers accurate forecasts, helping users plan their day with confidence.

EXPERIENCE

Smart India Hackathon (SIH)– Technical Experience 

Sept 2025 - Oct 2025

Role - Team Leader

- Participated in SIH and worked on solving a real-world problem statement using [MERN].
- Worked on the Hardware device to locate the real time position.
- Integrated [Global Positioning System], showcasing hands-on skills in project design and implementation.

Innotech 

Oct 2025 - Nov 2025

Role - Team Leader

- Participated in Innotech and worked on Iot based devices for real world issues.
- Built a hardware prototype capable of determining real-time location with high accuracy.
- Integrated GPS functionality to demonstrate practical skills in system design, and implementation.

TECHNICAL SKILLS

Languages: C/C++, Python, Java, JavaScript, SQL.

Technologies/Frameworks: HTML5, CSS3, React, MongoDB, Express, Tailwind, Bootstrap.

Developer Tools: Git Hub , Postman , Hoppscotch , VS Code, Canva.

ACHIEVEMENTS and CERTIFICATIONS

- LEETCODE – 460+ Problems **Rating: 1500+**
- CODEFORCES – 70+ Problems **Rating: 900+**
 - AWS Academy Cloud Foundations [Feb 2026]
 - Cyber Security – Training Certificate [June 2025]
 - Apna College – Full Stack Development [May 2025]

EXTRACURRICULAR

- Volunteered as a member of Uddeshhya (NGO), contributing to social initiatives and campus community activities.
- Anchored multiple college cultural events and fests, effectively engaging large audiences and managing event flow.
